#2 - 06/26/2018 09:55 AM - Natanael Copa

- Target version changed from 3.8.0 to 3.8.1

#3 - 09/11/2018 01:49 PM - Natanael Copa

- Target version changed from 3.8.1 to 3.8.2

#4 - 09/22/2018 02:36 PM - Carlo Landmeter

- Status changed from New to Resolved

This should be fixed when using swclock service.

#5 - 12/20/2018 04:27 PM - Natanael Copa

I wonder if we could test if current time is less than for example /bin/busybox, and if it is, set the time to /bin/busybox, or maybe autoenable swclock.
